

jitter.c

```
graph LR; jitter_c[jitter.c] --> speex_h[speex/speex.h]; jitter_c --> speex_bits_h[speex/speex_bits.h]; jitter_c --> speex_jitter_h[speex/speex_jitter.h]; jitter_c --> stdio_h[stdio.h];
```

A diagram showing the dependencies of the file **jitter.c**. The file **jitter.c** is represented by a black box on the left. Four blue arrows point from this box to four white boxes on the right, each representing a header file. The header files are **speex/speex.h**, **speex/speex_bits.h**, **speex/speex_jitter.h**, and **stdio.h**. The arrows indicate that **jitter.c** includes or depends on these four header files.

speex/speex.h

speex/speex_bits.h

speex/speex_jitter.h

stdio.h
